Jasper - Communicate

Your part: Explain how we shared our project and learned from other people.

Write 2-3 short bullet points per question in your own words. Use real team examples.

1. **How did our team introduce the Tree Stethoscope to the experts?**
   Think back: Who did we email? What did we tell them about our team, and what did we ask?

2. **Which answer from the TRCA or TreeAzin experts helped our team most, and why?**
   Think back: What did TRCA say about finding EAB early? What did the TreeAzin expert say?

3. **What would you show the experts in our demonstration to get useful advice?**
   Think back: What would you show on the wood and the screen? What would you ask them?
